

**BEING A  
LEARNER AT  
BPS.  
WHAT DOES IT  
LOOK LIKE AND  
FEEL LIKE?**

**In my opinion, a good school has: welcoming office staff, teachers who lead and guide students in their learning and who communicate outstandingly with the students and school community.**

- 1. My classroom is a well organised and clean space.**
- 2. Teachers are kind and willing to help students when in need.**
- 3. Teachers help us set goals for our learning. This helps us to identify areas for improvement.**
- 4. Teachers make us feel like we belong.**

# How has learning changed over the years in BPS?

- **Learning has become more complex. We take greater responsibility for our own learning and are less dependent on teachers. Goal setting gives our learning a purpose.**
- **We have more opportunities for collaboration and talk. Teachers are more than ready to frequently give us feedback about our work.**
- **We use technology to assist and improve our learning experience. It is used as a resource to help students to learn and to present and share their learning.**
- **We value the importance of growth mindset in our learning and now know mistakes are opportunities to learn.**

## What does my ideal lesson look like?

- **LISC - Learning intentions & success criteria**
- **Opportunities for collaboration**
- **Flexibility in how I can demonstrate my learning**
- **Frequent feedback**

# How has B.P.S prepared me for high school?

**B.P.S has prepared me well for high school.**

**My teachers have helped me:**

- **Develop a growth mindset and view mistakes as opportunities to learn**
- **Understand the value of collaboration**
- **Be a self-directed learner. I can set goals for myself and use LISC to monitor my progress**
- **Reflect on my learning and see feedback as an opportunity to improve my performance**
